

Art was never meant to be hidden away. It is created to be shared, to be experienced and enjoyed.

Artglass partners with museums around the world to provide maximum artwork protection with the highest possible clarity.

Leading museums trust us to protect their most cherished collections

- The Kensington Palace In London, UK
- The Rijksmuseum In Amsterdam, Netherlands
- The Prado Museum In Madrid, Spain
- The Pinacoteca de Estado Museum In Sao Paulo, Brazil
- The Summer Palace In Beijing, China
- ...and many more

ANTI-REFLECTIVE GLASS FOR MUSEUM SHOWCASES

When the artwork extends the physical dimensions of a frame, it needs a home of its own.

Sapphire™ range offers anti-reflective products that are suitable for thermal processing and available in a range of thicknesses

SAPPHIRE AR CLEAR

- Anti-reflective glass with an elevated UV protection
- Suitable for thermal tempering and bending
- Available in thicknesses up to 12 mm

SAPPHIRE 99 PROTECT

- Superb anti-reflective optical performance
- Shatter-resistant and 99% UV-protective due to the laminating film
- Available in thicknesses up to 13.5 mm
