

SAPPHIRE™ ANTI-REFLECTIVE GLASS FOR MUSEUM SHOWCASES

Sapphire™ anti-reflective products provide exceptional viewing experience with minimized reflections and glare. Sapphire™ products will be the best choice for any museum showcase seeking the best protection and presentation.

Invisible protection

Provides first-class transparency for all types of glass showcases

Outstanding viewing experience

Ultra-clear view to the artwork with minimized reflections

Diverse design possibilities

Thermally temperable and available in a range of thicknesses

When the artwork extends the physical dimensions of a frame, it needs a home of its own.

**SAPPHIRE™
AR CLEAR**

Anti-reflective glass with unparalleled processing possibilities.

Suitable for a multitude of museum showcase and display designs.

**SAPPHIRE™
99 PROTECT**

Highest quality invisible laminated glass with maximum UV protection.

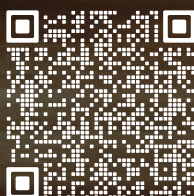

Provides elegant glass finish combined with shatter-resistance for physical safety.
