

THERE IS ART IN CLARITY

Displaying art is an art of its own.
That is why we created the clearest
museum-approved glass so far —
Artglass AR 99 Water White.

Use it to provide the highest clarity and
life-long protection for your artwork.

Artglass AR 99 Water White

Showcase your attitude

Make it clear to the world that you are an elite framer with **Artglass AR 99 Water White**.

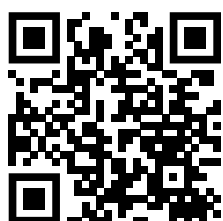

Best of both worlds

Yes, we finally did it! Artglass AR 99 Water White combines outstanding UV protection without sacrificing any clarity. Our mind-bending technology will keep your artwork safe from harmful UV rays, while providing first-class transparency at the same time.

Hassle-free handling

Scoring museum-grade glass is not always easy. To help you avoid scratching your new Artglass during handling, we have added a special film that can be removed just before completing the framing. Less stress, better results.
